

YOU ARE CORDIALLY INVITED TO OUR COMPLIMENTARY LIVE WEBINAR!

**PDU units pending approval by PEB*

The global COVID-19 pandemic has changed how utility companies, power generation plants, factories, industrial buildings, etc. operate and maintain their critical electrical assets. With employees working from home and companies having reduced manpower on site, deployment of condition monitoring equipment has become ever more important!

At CM Werkz, we specialise in Condition Monitoring products and services. To keep our customers abreast of the latest condition monitoring techniques, we are pleased to offer a series of condition monitoring webinars in **November & December 2021**.
